

WATCHDOG ENCLOSURE ITEM # 3658A

Thank you for purchasing a WatchDog Enclosure. In order to prepare your enclosure:

- Slide open the cover and remove the translucent plastic cap for the cable ports
- Cross cut the wells with a razor blade making an "X". This will allow the wires to pass through.
- Replace the plastic cap. It will only fit one way—with the wells toward the interior of the enclosure.
- Use the provided hardware to mount the enclosure.
